SEC | SECURITIES AND EXCHANGE COMMISSION OF SRI LANKA

The Securities and Exchange Commission of Sri Lanka (SEC) is responsible for the creation and maintenance of a fair, orderly, efficient and transparent capital market whilst ensuring professional standards in the industry.

The SEC is looking for self-motivated team players with detailed knowledge of the best practices in the IT industry with sound knowledge of current and future global cutting-edge technology trends for the following positions:

Chief Information Officer

The role :

The person selected will overall manage the IT infrastructure of the Secretariat, develop and execute an IT and digital strategy to bring the Secretariat on par with other international regulators. In other words, he/she would be the key player in executing the five year IT strategy for the SEC.

The Chief Information Officer would be required to provide leadership to achieve the IT vision through development of IT infrastructure of the SEC. In doing so, he/she will overlook IT Procurement, Application Support, Quality Assurance, Software Development, Network, IT Operations and IT Security in addition to attending and managing all IT related day-to-day requirements of the Secretariat.

Skills and Competencies :

- Clear demonstration of IT strategy development and execution.
- Display strong project management skills, required to manage and multi task across affairs efficiently.
- Ability to think fresh and drive innovation across the ecosystem.
- Understanding and anticipating stakeholder needs and balancing same with organizational demands.
- Excellent interpersonal skills with good verbal and written communication skills.

Qualifications :

- A Bachelor's Degree in Information Technology, Computer Science and/or Information Systems.
- A Class and a Master's Degree would be considered as an added qualification.
- Age between 30 - 50 years.
- At least 2 – 5 years experience in a similar capacity with 8 years of senior managerial and/or managerial experience in IT.

Assistant Manager - Information Technology (IT Helpdesk Support)

The role :

The person selected would engage in IT operations and digital infrastructure and assist in the development and execution of the overall IT and digital strategy to align IT standards and help define new standards.

The Assistant Manager – Information Technology, would also be responsible for providing first level technical support and resolve IT incidents and requests within agreed timeframes while managing user expectations and experience whilst managing IT helpdesk.

Skills and Competencies :

- Outstanding working knowledge of computer systems, security, network and systems administration, databases and data storage systems and phone systems.
- Familiarity with the networking concepts and hardware troubleshooting.
- Ability to work independently under minimal supervision.
- Motivated individual who would achieve shared goals and results by sincerely providing a helping hand to others.
- Strong communication skills, both verbal and written.
- Ability to think fresh and drive innovation across the ecosystem.

Qualifications :

- A Bachelor's Degree in Information Technology, Computer Science and/or Information Systems.
- A Class and a Master's Degree or a Postgraduate Diploma certified in Microsoft, CISCO, VMware etc would be an added advantage.
- Age between 25 – 40 years.
