

Software Engineer .NET & Angular

Abans is one of the largest, diversified business conglomerates in Sri Lanka with major interests in consumer electronics, information technology, logistics and supply chain, environmental services and advertising. We have the following opening in our Strategic Information Systems management team, delivering business solutions to manage core supply chain processes of its subsidiary companies.

The candidates should be below 30 years of age with a B.Sc. degree or diploma in IT, a task-oriented self-starter in addition to possessing the following position-specific qualifications.

KEY RESPONSIBILITIES

- Actively engaging in all stages of the software development process, including requirement gathering, design, development, testing, deployment management, issue review, and maintenance.
- Developing existing programs by analyzing and identifying areas for modification.
- Maintaining up-to-date knowledge of the latest technologies, tools, and platforms.
- Monitoring system performance and security aspects.
- Producing high-quality designs through research, and writing new secure software programs by following industry best practices and coding standards.
- Communicating (both written and verbal) with technical and non-technical contacts (internal and external) and all seniority levels.
- Working both independently and as a part of a team.
- Performing tasks with minimum supervision.
- Providing training and guidance to new developers.
- Ensuring the security of operations by keeping information confidential.

TECHNICAL SKILLS

- Solid knowledge and hands-on exposure to Angular development and other front-end web technologies.
- Strong technical skills and hands-on experience in .NET with ASP.NET MVC, RESTful API and .NET CORE.
- Expertise in OOP design and programming concepts.
- Sound analytical and problem-solving skills.
- Strong knowledge of Oracle/MSSQL database, querying, and optimization.

QUALIFICATIONS

- Bachelor's degree in Software Engineering, Computer Science or IT or an equivalent qualification.

WORK EXPERIENCE

- 2+ years of industrial experience

An attractive remuneration package and a rewarding career await selected candidates.
